Madam Puri

Kimono motif-style Hijab is available in Kyoto!

Kyoto is famous for the beauty traditional culture, including the infamous kimono. If you wandering around Kyoto, you will see many people, including foreigners, are wearing kimono everywhere. From that idea, Sachiyo Tsukuda, the Director Vice President in Japanese Restaurant & Souvenir Shop in Arashiyama YOSHIYA, created hijab in creative kimono style called Madam Puri.

By using traditional Japanese kimono colors and patterns, Madam Puri makes lovely hijabs from original textures. All the products are handmade from Japan own texture with the materials such as silk, cotton, polyester, etc. With Madam Puri, Muslim ladies could easily wear hijab and at the same time enjoyed the beauty of Kimono.
