

ABOUT

Many people in Japan are not knowledgeable about the Muslim community.

I believe that therefore when Muslim people visit Japan, they feel anxiety towards taking meals and understanding the customs in Japan.

We would like to provide information in order to remove these anxieties, allowing everyone to enjoy their stay in Japan.

We would be more than happy if this guide will help in Muslim people enjoy sightseeing, taste delicious foods, and touch upon Japanese culture and the minds of Japanese people, and become fond of Japan.

First, we will focus on collecting information of restaurants with understanding towards the religious rule of the Muslim community, such as places that serve halal food.
