

ABOUT

Halal Media Japan is the world's first Japanese Halal portal site available in English. Our philosophy is to introduce Japanese Halal to those, such as Muslims, who require Halal, and to contribute to the international community.

Japan, blessed with an abundance of natural beauty, has for a long time captivated people around the world throughout the year. Our goal is to introduce this appeal of Japan together with its latest Halal initiatives to further enhance the understanding of Japan.

We aim to play a part in helping Japan become one of the world's leading Muslim-friendly nations, despite Muslims being a minority in Japan.
